

# Cup and Flying Saucer

By Mark Edgemon

I traveled billions of miles in such a short order,  
To visit Mayberry if I can find it's location.  
I plan to meet the Bradys and the Beaver  
And listen to, "I'm a Believer" sung by the Monkees.

I'm a Centro of the Ularian Disintegration Force,  
A universal law keeper presiding over hundreds of galaxies.  
I remove corrupting offenders from their corporal existence  
And I have found many on your planet called, "Earth".

Through monitoring your communications system called TV,  
We have discovered the most vile, seditious creatures,  
That perverts our time and space with an assault on Truth,  
Which I plan to neutralize in quick order...if I can find my ray gun!

The sheriff of the small town of Mayberry is a liar and the first to go.  
He pretends to uphold justice, while misleading people with winks and trickeries.  
And did the Beaver ever obey his parents? He is not worthy to reach adulthood!  
The Brady family never paid their maid and was too cheap to install a toilet for their offspring.

It maybe that humans act differently than on TV.  
Maybe they don't really lie or cheat or steal like in their TV series.  
Maybe they ACTUALLY look after each other in a spirit of peace and harmony.  
Cause if they don't.....ZAP!

The End
