

Fluoride In the Water

By Richard Tornello

Fluorides' in my water so
Probably killing me, I don't know.
But scientists in their pay, won't say
Won't tell the US either way

(Scientists in their pay won't say
Causing cancers by the score)

It's a poison that we know
Kills rats and even more
Don't swallow much
Or the doctor goes.
Good for US, well, I don't know.

Used for nuclear war, this we know
Causing cancers by the score.
Hushed up data this I'm sure,
Causing cancers by the score.
